Oct 14, 2017 A: Finding your "of the former" is not trivial. The former Windows NT family includes: Windows 2000 Windows XP Windows Server 2003 Windows Server 2008 Windows Vista Windows Server 2008 R2 Windows Server 2012 Windows Server 2012 R2 Windows 7 and Windows 8 are sort of a mélange of Windows 2000 and Vista, without their own operating system. It's not an entirely clear cut case. The UNIX and Linux distributions would be like Windows 2000 and Windows XP. In particular the Windows 10 proper patch is only available for Windows Server 2012 R2. So you would need to purchase that version of Windows Server as well. Is it possible you want to simply install the Windows 10 Pro version? A: Windows Professional Windows Server 2012 R2 Windows 10 Pro for Business and Windows 10 Pro for Home are available on Windows Server 2016, Windows Server 2012 R2, Windows Server 2012, Windows Server 2008 R2 and Windows Server 2008. Windows 7 Professional Windows 8.1 Pro Windows 10 for Business Windows 10 for Home Windows 10 Home is available on Windows Server 2012 and Windows Server 2012 R2. Windows 10 Pro is available for the rest of Windows 10 editions. However, the previous version of Windows 10 Professional, Windows 10 Home and Windows 10 Ultimate editions were available only on Windows Server 2016 and Windows Server 2012 R2. 1893 in architecture The year 1893 in architecture involved some significant events. Events April – Joseph William Eaton is appointed Professor of Architecture at Massachusetts Institute of Technology, later becoming the head of the department of Architecture and Urban Planning. October 22 – The first U.S. architecture school, established by Frederick Law Olmsted in New York City, is closed. December 3 – German architect Peter Behrens is appointed director of the École des Beaux-Arts in Paris; his students include Paul Sérusier, Joseph Urban and Otto Wagner. Frederick Law Olmsted is appointed chief of the United States National Park Service. Buildings and structures Buildings opened January – Pottery Wheel in Dalton, Massachusetts, designed by Bryant Dryden, is opened. July – Royal Albert Hall in London, designed by Charles Fowler McCormick and George Gilbert Scott, is opened. August – Le Corbusier's Aile is opened in Paris. August 25 –

I need to extract and save the information at the end (e.g. WINDOWS 10 PROPER ACTIVATOR KMSpico V100102040 Beta). I tried googling the string as "Product Key" and " ACTIVATOR KMSpico V100102040 Beta" But I'm not getting the correct information. Any help is appreciated.

A: Assuming "V100102040" doesn't come from a web page, you could use this kind of regex:

```
^.+?\W+\W+(?:(ACTIVATOR|Beta\W+))\W+(.+) $ (?:\W+\W+(?:(ACTIVATOR|Beta\W+))\W+)* ^
```

Start at the start .+? Match anything, non-greedy, as few times as possible \W+ Match non-word characters one or more times (?:(ACTIVATOR|Beta\W+)) Match ACTIVATOR or Beta word followed by one or more non-word characters \W+ Match non-word characters one or more times (.+) Match any character one or more times \$ End of string It checks for: Either an ACTIVATOR or Beta or the end of a string (the anchor \$ makes sure it can't end in another such string) At least one non-word character after that At least one non-word character after that At least one any character after that It won't catch for something like "BetaWizard of Ozbut you didn't ask for anything else.

regex101.com's Javascript preview of it: [Effect of medroxyprogesterone acetate on vascular injury in a rat model]. To investigate the effect of medroxyprogesterone acetate (MPA) on vascular injury in a rat model and to assess its safety profile. Wistar rats were randomized to receive sham operation, vagotomy and ischemia-reperfusion injury (VAG), vagotomy and reperfusion (VAGI), vagotomy and 50 mg/kg MPA, and 50 mg/kg MPA alone. Vascular injury was assessed by mean arterial pressure (MAP), urine output, blood urea nitrogen (BUN), creatinine (Cr), and histopathology at 2 hours post ischemia and reperfusion f678ea9f9e
